

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of the Claims:

Claim 1 (currently amended) A textile treatment composition which comprises An azetidinium functionalised polymer containing secondary amine groups and a textile compatible carrier, wherein the monomers comprise:

- a) an amino-acrylate and/or amino-alkacrylate monomer, and,
- b) optionally, further non-amino acrylate and/or alkacrylate monomers,

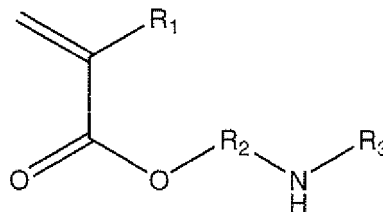

and wherein the textile compatible carrier is a detergent active compound or a textile softening or conditioning agent.

Claim 2 (cancel)

Claim 3 (cancel)

Claim 4 (currently amended) A textile treatment composition according to claim 3 1 wherein the concentration of the polymer is such as to give 0.01-1%wt on weight of textile material being treated.

Claim 5 (currently amended) A polymer according to claim 2 1 wherein the amine containing acrylate monomers have the general structure:

wherein

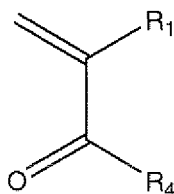

R₁ is hydrogen or a C₁-C₆ alkyl,

R₂ is C₁-C₆, alkyl, alkoxy or repeating units thereof,
and,

R₃ is hydrogen or C₁-C₆ alkyl, alkoxy or repeating units thereof.

Claim 6 (currently amended) A polymer according to claim 2 1 wherein the amine containing acrylate monomers include one or more of 2-Aminoethyl methacrylate, and, 2-(tert-butylamino)ethyl methacrylate.

Claim 7 (currently amended) A polymer according to claim 2 1 wherein the non-amino acrylate and/or alkacrylate monomers are of the general formula:

where:

R₁ is hydrogen or a C₁-C₆ alkyl, alkoxy or repeat units thereof,

R₄ is a functional group does not contain an amine.

Claim 8 (previously presented) A polymer according to claim 7 wherein R₄ is a polyalkyleneglycol.

Claim 9 (previously presented) A polymer according to claim 8 wherein the non-amino monomer is one or more of

poly(ethyleneglycol)methacrylate, poly(propyleneglycol)methacrylate,
poly(ethyleneglycol)acrylate, and,
poly(propylene glycol)acrylate.

Claim 10 (previously presented) A polymer according to claim 7 wherein R_4 is poly(dialkyl siloxane) or poly(alkylene glycol) fatty ether.

Claim 11 (previously presented) A polymer according to claim 7 wherein R_4 is one or more of one or more of:

- 2,2,3,3,4,4,5,5-Octafluoropentyl acrylate,
- 2,2,3,3,4,4,5,5-Octafluoropentyl methacrylate,
- 2,2,3,3,4,4-Hexafluorobutyl acrylate,
- 2,2,3,3,4,4-Hexafluorobutyl methacrylate,
- 1,1,3,3,5,5-Hexafluoroisopropyl acrylate, and,
- 1,1,3,3,5,5-Hexafluoroisopropyl methacrylate.
